

SHOW PREVIEW

22 - 25 NOVEMBER 2006, JIEXPO KEMAYORAN - INDONESIA

EXHIBITION HOURS:
 22 NOVEMBER : 12.00 - 17.00
 23 - 24 NOVEMBER : 10.00 - 17.00
 25 NOVEMBER : 10.00 - 16.30

INDO DEFENCE

2006 EXPO & FORUM

THE 2ND INDONESIA'S OFFICIAL TRI-SERVICE DEFENCE EVENT

THE FUTURE OF DEFENCE TECHNOLOGY @ INDO DEFENCE 2006

Attention all Armed Forces, Police, Government/Department, Security Services, Professionals, Military & Police Academy, Distributors, Agents and Retailers. Make your plans today to attend The 2nd INDO DEFENCE Expo & Forum - Indonesia's No.1 International Tri-Service Defence Event from 22 - 25 November 2006 at the Jakarta International Expo (JIEXPO) Kemayoran, Indonesia.

You are invited to join over 12,000 delegates and visitors at the biggest defence industry gathering of the year. Over 400 of the leading names in the industry from 30 countries including Sukhoi, Daewoo, Bae Systems, Rolls-Royce, PINDAD, Fincantieri, Indadi Setia, Arsenal, Brahmos, Sentra Surya Ekajaya, Kazan, Kuantan Utama, LG Aviation, Airod, Bumar, Rosoboronexport, Surya Kepanjen, KIA, Vectronix AG, Royal Schelde, Stork Special Products, Salut, EADS, Lurssen and 11 National Pavilions from Germany, Indonesia, Poland, Czech, France, India, The Netherlands, Singapore, Malaysia, Russia and South Korea will be there for the **biggest ever** defence industry showcase in Indonesia.

You are also invited to attend the international conference, live product demonstration and over 30 technical presentations. Limited seats are available on 'first-come-first-served' basis. Please refer to back page for detail programme.

So, whether you are planning to make a purchasing decision, source for new suppliers and products, keeping in touch with the latest industry developments or just to network with industry members, you must attend INDO DEFENCE 2006 Expo & Forum - Indonesia's No.1 International Tri-Service Defence Industry Show.

Please find enclosed the complimentary tickets for you or your colleagues.

PAMERAN INTERNASIONAL INDUSTRI PERTAHANAN TERBESAR DI INDONESIA

Departemen Pertahanan kembali menyelenggarakan Pameran Internasional Industri Pertahanan yang kedua di Jakarta International Expo Kemayoran, Jakarta pada tanggal 22 - 25 November 2006. Lebih dari 400 perusahaan dari 30 negara termasuk Sukhoi, Daewoo, Bae Systems, Rolls-Royce, PINDAD, Fincantieri, Indadi Setia, Arsenal, Brahmos, Sentra Surya Ekajaya, Kazan, Kuantan Utama, LG Aviation, Airod, Bumar, Rosoboronexport, Surya Kepanjen, KIA, Vectronix AG, Royal Schelde, Stork Special Products, Salut, EADS, Lurssen dan 11 negara paviliun yaitu Jerman, Polandia, Ceko, Perancis, India, Belanda, Singapura, Malaysia, Rusia, Indonesia dan Korea Selatan akan hadir di pameran ini.

Anda di undang untuk menghadiri pameran dan seminar produk secara gratis untuk memperoleh informasi dan produk terbaru dalam bidang pertahanan (*lihat halaman belakang untuk jadwal lengkapnya*). Lebih dari 12.000 pengunjung dari angkatan bersenjata, kepolisian, pemerintahan, departemen, jasa keamanan, profesional, sekolah/akademi TNI/POLRI akan hadir di pameran yang berlangsung selama 4 hari.

Bersama ini kami lampirkan tiket undangan untuk masuk ke pameran. Tiket harap diisi dengan lengkap dan diserahkan di loket registrasi untuk mendapatkan tanda pengenal pengunjung untuk masuk ke pameran dengan gratis.

"This exhibition is expected to attract world attention to Indonesia's economic potential, specifically in defence manufacturing capability, which at the same time to raise the world's level of confidence toward Indonesia. Furthermore, INDO DEFENCE Expo & Forum could be programmed to be held periodically in the future."

Susilo Bambang Yudhoyono
President, Republic of Indonesia

"It is my pleasure to welcome all exhibitors, participants and delegates to the 2nd International Tri-Service Defence Expo & Forum - INDO DEFENCE 2006. My Ministry is delighted to host this event which will bring together regional industry experts and senior military personnel to examine the latest in defence technology and share experiences and views on security issues."

Indonesia is committed to a policy of peaceful co-existence in the region and in the international arena. We will strive to maintain close and friendly co-operation with our neighbors to ensure and maintain regional security. INDO DEFENCE 2006 Expo & Forum is an important platform for Indonesia to develop and build regional and international military ties. In addition, it will give us an opportunity to review our technological requirements in land, air and sea defence systems.

As such, I am pleased that the theme: "Regional Military Cooperation - A New Paradigm" with a sub-theme: "A Holistic Approach to Regional Security" has been chosen for the event. We should review and adopt new approaches to ever changing security threats that nations are facing today.

Finally, may I take this opportunity to wish you a fruitful and productive time at INDO DEFENCE 2006 Expo & Forum.

Juwono Sudarsono
Minister of Defence, Republic of Indonesia

"As the 1st Exhibition of the INDO DEFENCE 2004 gained a huge success, the 2nd Exhibition of this year will undoubtedly attract more exhibitors and participants that features a complete range of state-of-the-art technology, equipment and services as well as latest military products, in addition to significant seminars and conference. As such, these will constitute an effective bridge for the suppliers, customers, experts and the senior defence / security officials to interact for a wider area of cooperation and further enhance exchange of knowledge and experience. I am convinced this expo will be of a great event to be proud of, and, will ultimately be acknowledged as the world-class Expo."

Air Chief Marshal TNI Djoko Suyanto
Commander in Chief
Indonesian National Defence Forces

FREE! TECHNICAL PRESENTATIONS

When you are at INDO DEFENCE 2006, they not also attend the many free technical presentations on some of the latest solutions and techniques that are more efficient in solving your defence needs. It is open for Police, Armed Forces, security services, government, departments, professionals, consultants, industries, distributors, agents and resellers. Attendance is **FREE** but seats will be on 'first-come-first-served' basis. You must register directly with the presenting companies to ensure your seat.

INDO DEFENCE 2006 CONFERENCE

"Maritime Security: Challenges And Prospects For Regional Cooperation"

The who's who of the military arena will be at the **INDO DEFENCE 2006 Conference** to share experiences, network and build partnerships. We invite you to sign up for this Conference and be updated on the latest trends and issues in the region. Please see back page for detail programme.

Venue: Lawu 1 Room, Trade Mart Building 6th floor, Jakarta International Expo Kemayoran.
Date: 23-24 November 2006.
Organised by: CSIS, Department of Defence and PT. Napindo Media Ashatama.

INFORMASI UNTUK PENGUNJUNG

- Tanggal** : 22 - 25 Nopember 2006
- Tempat** : Jakarta International Expo (PRJ) Kemayoran, Jakarta - Indonesia.
- Jam Buka** : 12.00 - 17.00 (22 Nopember 2006)
10.00 - 17.00 (23-24 Nopember 2006)
10.00 - 16.30 (25 Nopember 2006)
- Ketentuan Masuk** : Khusus untuk angkatan bersenjata, polisi, pemerintahan/departemen, konsultan keamanan, distributor/agent dan profesional. **Pengunjung dibawah 18 tahun dilarang masuk.** Gratis biaya masuk dengan mengisi formulir registrasi dan melampirkan kartu nama untuk memperoleh tanda masuk dari penyelenggara di konter registrasi.

PZL-HYDRAL S.A.

We Offer:

- Fuel /Fadec/ And Hydraulic Control Systems, Pumps, Servovalves, Electronics, Precision Machining - It 6, Special Processes, Heat And Surface Treatment, Aluminium Foundry, Service.
- Certificates: Jar - 21 Design And Manufacturing Organisation, Iso 9001 : 2000 By Bvqi, As 9100 - Compliance.

CV. WELL RACOM NUSANTARA

- GRC-105**
VHF- UHF Ground to Air Military Aviation Transceiver
- WELL BS-502A**
20A Regulated DC Switching Power-Supply With Automatic-Protector
- WELL BS-513**
20A Regulated DC Switching Power-Supply With Automatic-Protector
- WINRADIO WR31501**
Monitoring & Surveillance System With wideband range from 150KHz-1.6GHz. All mode, attenuation, voice recoding, signal strength recording, also spectrum scope for easy scanning. Stand alone single channel & 3 channel are available.

TISAS-TRABZON GUN INDUSTRY CORP.

Fatih 13
Caliber: 7.65mm
Magazine capacity: 12
length: 172mm
Height: 128mm
width: 36mm
barrel length: 100mm
pistol weight: 680g
effective range: 25m
line of sight: 123mm
trigger pull: 2kg
muzzle velocity: 270±10m/sn

"Small but reliable"

NAVAL SHIPYARD GDYNIA S.A.

Fast Patrol Craft

Type Of The Ship
Twin screw, single deck steel-hulled fast patrol craft with two storey light alloy superstructure.

Role Of The Ship

- Protection of territorial waters zone
- Anti-smuggling and customs operations
- Surveillance of the Exclusive Economic Zone
- Offshore protection
- Escort duties

Main Characteristics
Length o.a. 36.40 m
Maximum speed abt. 26 knots
Crew 25

VICTORINOX

Victorinox products draw upon a century of tradition and experience. The story began in 1884, when Karl and Victoria Elsener founded the company. Now Victorinox is the world leader of pocket tools (Multi Tools & Pocket Knives). For every activity, be it professional, in the home or during leisure time. It is a need for excellent tools and cutting implements. Victorinox the essential tools for generations.

DOMETIC S.A.R.L.

Field Catering Equipment.
Today's world conflicts coupled with the growing mobility needs of modern armies and humanitarian organisations require more and more highly mobile and durable support equipment in the field of operations. To meet this need, Dometic S.A.I committed itself to develop a Field Catering Equipment Programme.

For the concepts of "Meals Distribution", "Food Transport", "Field Refrigeration", and "Cooking", Dometic S.a.r.l. offers a full product range: rotationally moulded insulated containers for transporting and storing food, transport and field refrigerators, multifuel burners and cookers. Tailor-made solutions of all products or for all needs are also possible.

CENZIN CO. LTD.

Foreign Trade Enterprise CENZIN Co. Ltd. is a recognized supplier to the:

- > Army,
- > Police,
- > Special Forces,
- > Antiterrorist Units.

We offer:

- small arms and rifles,
- personal protection equipment,
- ballistic protection equipment,
- technical equipment for the protection of restricted access zones,
- individual anti-chemical and anti-biological protection kits,
- observation gear (sighting scopes, night vision),
- registration plate recognition and data processing equipment.

BHARAT ELECTRONICS LIMITED

BHARTI
Description: 30-88 MHz Secure VHF FH radio for voice and data communication. It is software controlled and the design is based on DSP, Direct Digital Frequency Synthesizer and Micro controller. The radio has built-in GPS and is available in 5 W and 25 W power output versions.

PIT - TELECOMMUNICATIONS RESEARCH INSTITUTE

TRD-1235 Long Range L-Band Radar provides information to Air Defence command and control systems. The radar is designed for both the unattended operation with remote control/monitoring and the staff-supported operation. Airborne targets are detected in three dimensions using the stacked-beams mono-pulse technique for estimation of elevation and the mechanical scanning in azimuth plane. The radar provides digital messages which include plots of target tracks and the IFF data of the targets. The effective operation of the radar in the clutter and jamming environment is achieved using adaptive signal processing and other advanced techniques.

Radar TRD-1235 jarak jauh, 3D, dapat dipindai dirangsang sebagai sumber informasi bagi Sistem Peringatan Udara. Berdasarkan sistem identifikasi IFF/SSR terpasang. Data yang menjelaskan objek yang terdeteksi dan teracak dan berasal dari kedua radar utama serta subsistem IFF/SSR akan diproses dan ditransfer ke lokasi Sistem Komando dan Kendali (C3) dalam bentuk plot digital.

PZL MIELEC

M28 SKYTRUCK - Multi-Role Plane

The M28 SKYTRUCK airplane is designed primarily for passenger & cargo transport as well as to the special mission i.e. search & rescue, patrolling & reconnaissance, medevac transport, parapdrop.

M18 DROMADER - Fire-Fighting & AG Plane

The M18 DROMADER airplane is designed primarily for agricultural operation of large field areas (crop treatment and fertilizing) and forest-, bush- and crop fire fighting.

M26 ISKIERKA - Primary Trainer Plane

The PZL M26 ISKIERKA (Little Spark) is a piston trainer designed for selection of pilots eligible for military training as well as for training of pilots.

AMERICAN TECHNOLOGIES NETWORK CORP. (ATN)

The PS-14 Multi-use Night Vision monocular is one of the most versatile night vision devices available.

This unit can be handheld, head-mounted for hands free usage, it's camera /cam-order adaptable, and can be made into a 4x or 6.5x bi-ocular. This unit can also be weapon-mounted. The integrated IR illuminator enhances the ability of the user to read maps and operate in confined, zero light areas.

The Night Spirit is available with several image intensifier options to meet a wide array of specification requirements.

RADMOR S.A.

Handheld Radio Station 3501

- Output power up to 3 w
- Simple operation with 2 switches and 2 buttons
- Operation on 10 preprogrammed channels
- Easy-to-read LCD
- Switchable noise squelch with power saving circuit
- Built-in test program; error messages are displayed on LCD

RADMOR 3501 is modern handheld radiostation for tactical communication at the VHF frequency range. This small size, lightweight and easy to use radio is ideal personal radio for soldier especially for company and platoon levels of the armed forces. Radiostation operates in 30 - 88 Mhz frequency band on ten preprogrammed channels. Radiostation 3501 provides the following types of communication: clear voice communication, scrambled voice communication, digitized voice transmission and data transmission.

The equipment can be used in any region of the world; in very harsh environments robust die-cast aluminum housing is sealed to resist dust, sand, water and humidity.

AIROD SDN BHD

AIROD is an international aerospace maintenance and modification center located at the Subang Airport Complex. AIROD's well-established facility includes narrow and wide body hangars and workshops capable of accommodating two B-747s or thirteen C-130s at any one time, a dedicated paint and strip hangar and engine test cells.

AIROD was established in 1976 as the first and only in-country facility to support the Royal Malaysian Air Force aircraft. In 1986, it was privatized as a joint venture company between National Aerospace & Defence Industries (NADI) and Lockheed Aircraft Systems International (LASI) of USA. Today, AIROD is a fully Malaysian owned and is a leading aviation MRO facility providing quality services to its 50 customers in 25 countries.

TEIJIN TWARON GMBH

Beside personal protection like bullet proof vests, helmets and shields Twaron is also used for a wide variety of protection for all kinds of military vehicles and even for aircrafts and helicopters

PT. BINA PUTERA SEJATI

No Batteries- No Switches - Maintenance Free

Mepro 211 Day / Night Illuminated Reflex Sight Features :

- Specially Incorporated Day / Night Sight

Mepro GL5 - 203 Self - illuminated Optical Sight Features :

- Quality and rapid Integrated Day / Night Sighting

Trillum Self - illuminated Prismatic Magnetic Compass Features :

- Wide 200° Field of View
- No Parallax Error

Illuminated Map Reader Features :

- Magnifies and illuminates
- Rugged Construction - Waterproof and Impact Resistant

Personal Marker For NightTime Identification Features :

- Easily Fastens to Combat Gear or Article of Clothing
- Minimum Six Years Uninterrupted Light

ARSENAL JSCO

Small arms, artillery armaments, ammunition, primers, powders, pyrotechnic products, hunting and sport weapons and ammunition

PT. WAHGO INTERNATIONAL

PT Wahgo International is a specialist in Military Hardware, Aviation Equipment , Military & Civilian Radar Systems and Telecommunication Equipment to the Indonesian Armed Forces and The Indonesian Police.

PT Wahgo is the SOLE AGENT for Kenwood Radio Communications (Japan), Barrett Communications (Australia), Hindustan Aeronautics Ltd (India), Bharat Electronics (India), Aero Vodochody (The Czech Republic), OFB - Ordnance Factories Board (India), Brahmos (India), Jawa Motors (The Czech Republic), Kyodo (Japan), Microstep-MIS (Slovakia), Tesla (The Czech Republic) and Omnitronics (Australia).

Our Company supplies a wide range of Military Equipment which include Military Aircraft, Helicopters, Radars, Tanks and Other weapon Systems. We also provide complete Telecommunication Systems and Radio Network Integration at all levels.

DRHUV ADVANCED LIGHT HELICOPTER

ROLLS-ROYCE

Rolls - Royce is a leading engineering company that operates in four global markets - civil aerospace, defence aerospace, marine and energy. Synonymous with integrity, reliability and innovation, it is the world's second largest civil aero-engine company, a global leader in marine propulsion and a leading supplier of energy solution.

Trusted to deliver excellence

FINCANTIERI

SHIPBUILDER (Aircraft, Submarine, Frigate, Warships / Support Ship, Coastguard).

ROSOBORONEXPORT

BMP-3F Infantry combat vehicle.

BMP-3F Infantry combat vehicle incorporates a number of advanced engineering solutions, which make it a multipurpose combat vehicle developed for units of different services. It is fitted with powerful armament, including a 100 mm gun-launcher to fire guided and unguided munitions, a 30 mm automatic gun firing different types of projectiles and 7.62 mm machine guns, which provides for the vehicle's enhanced firepower and a capability to effectively accomplish numerous fire missions using optimal types of weapon.

BMP-3F demonstrates excellent cross-country capability when driving on marshy and sandy terrain as well as impressive amphibious performance.

PT. SPANSET AMANDIRA INTERNUSA

SpanSet is a worldwide famous brand for synthetic Lifting Sling (Webbing Sling and Round Sling), Lashing System (Ratchet Lashing) and Height Safety Equipment (Full Body Harness, Lanyard, Fall Arrestor, Tripod).

OLYMPUS SINGAPORE PTE LTD

Olympus specializes in the manufacture and sale of industrial Remote Visual Inspection (RVI) products for the inspection of difficult to access areas.

OLYMPUS
Your Vision. Our Future

ABEKING & RASMUSSEN

Abeking & Rasmussen (A&R) is a German shipyard that has delivered nearly 6.500 boats and vessels for customers all over the world. Nowadays the shipyard offers motor- and sailing yachts, offshore patrol vessels, fast patrol boats, mine counter measure vessels, auxiliary craft and SWATH (Small Waterplane Area Twin Hull).

Recently A&R delivered three 68m patrol boats for German Coast Guard. These vessels are regarded as particularly powerful, economical and environmentally friendly. In Indonesia A&R concentrates on their family of patrol boats from 20m to 80m length for patrol tasks from coastal waters to exclusive economic zones and maritime disaster prevention.

AERO VODOCHODY

AERO Vodochody a.s. established in 1919 is the largest jet training aircraft producer in the world (during the last 50 years). AV has manufactured about 2/3 of the world's production for this type of aircraft). AV is the largest army and aircraft technology producer in the Czech Republic.

AV would like to promote the L159 A Advanced Light Attack Combat Aircraft and L159 B Advanced Training and Combat Aircraft . Technologically advanced at all levels, it is the only jet aircraft that can land on grass airfields. It is ideal military jet aircraft as it can be used in a wide variety of roles such as Advanced Training , Lead-In-Fighter and Weapons Training , Tactical Reconnaissance , Counter Insurgency , Border Patrol , Air Defence and Close Air Support , tactical Interdiction and Anti-Ship.

PZL-SWIDNIK S.A.

The **PZL W-3WA helicopter** is a combat support version of the multi-purpose PZL W-3A "Sokol" helicopter. It has been designed for combat support missions, such as anti-tank operations, laying mine barriers, bombing missions, destructions of gun posts and bunkers without impairing its high capacity for troop (10 people) nad cargo (2100kg) transport. It can fly day and night, under all weather and climatic conditions, VFR and IFR, at altitudes up to 6000m ASL.

KAZAN HELICOPTERS

"Kazan Helicopters" is one of the largest helicopter producers of the world. Company has been producing helicopters since 1951. "Kazan Helicopters" is a manufacturer of widely known Mi-8/Mi-17 (13500 kg, twin turboshaft) helicopter family that have gained an excellent reputation during operation in more than 80 countries all over the world. Due to the successful flying characteristics they became a base model for a wide range of modifications.

"Kazan Helicopters" have on the production line new light "Ansat" (3300 kg, twin turboshaft) helicopter of its own design. Ultra light "Aktai" (900 kg, single rotor-piston engine) helicopter and medium Mi-38 (18000 kg, twin turboshaft) are in development.

"Kazan Helicopters" supplies helicopters for export since 1956, and has vast experience in supporting their production abroad.

BECKER FLUGFUNKWERK GMBH

Becker is an innovative high-tech company which is working on the latest navigation systems based on satellite navigation and LC Display and in business area developing avionics, flight safety ground systems, search & rescue equipment, and has an international reputation as a producer of avionics with good quality and reliability.

BECKER As innovative high-tech company is working on the latest navigation systems based on satellite navigation and colour LC displays, and in the business area is developing avionics, flight safety ground systems and search and rescue equipment.

STEINER-OPTIK GMBH

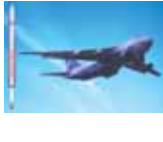

STEINER-Optik is the only manufacturer who had developed binoculars especially for military purposes constantly proving their reliability and effective performance during many peace-keeping missions and war-combats.

- STEINER military binoculars excel by crystal sharp view due to application of latest technologies in optical manufacturing and coating.
- STEINER's special optical military construction guarantees stability even under severe shock and vibration conditions - due to their Makrolon housing our binoculars are extremely rugged and lightweight.
- STEINER's slip-proof and noiseless rubber-armouring gives additional protection against environmental influences.
- STEINER's laser filter technology applied on optical observation devices protects the users' eyesight.

AIR LAUNCH AEROSPACE CORPORATION

The Air Launch Aerospace Corporation (ALAC) was established in May 1998 by Polyot Cargo Airlines and Khimavtomat Design Bureau to develop a space transportation system for spacecraft insertion into the near-earth orbits using a space launch vehicle ejected from the Antonov An-124-100K aircraft. ALAC is now working on the Project permitting a faster, better and less expensive satellite insertion using the wide experience of the Project participants in designing rocket-and-space systems and utilizing highly reliable Russian rocket engines together with unique capabilities of the Antonov An-124-100AL heavy cargo aircraft.

LUERSSSEN

Vessels for Navies and Coast Guards:
Fast Patrol Boats,
OPV's, Corvettes, Frigates, Mine Hunter,
Fleet Support Vessels, ILS (Integrated Logistics Support), Crew training, Spare Parts, Documentation

BUMAME

Established 15 years ago, BUMAME is a guns supplier company for civilian, Military, and Police Force as well. To fulfill those needs, BUMAME is appointed as a sole agent in Indonesia for branded products such as :

1. Taurus
2. CZ
3. Steyr

Model R2 Service Revolver holds 6 rounds of .38 S&W +P. Taurus Security System for added peace of mind.

CZ 75 SP-01 TACTICAL

- Design based on CZ 75 (ergonomical similarity with CZ 75 D Compact)
- Ergonomically shaped
- Ambidextrous decocking lever for the CZ 75 SP-01 TACTICAL
- High stability and steadiness while shooting quick shots
- Enhanced magazine capacity holding 10 cartridges. CZ 75 standard magazines can be also used

STEYR

The AUG is standard weapon of many armed forces and special units around the world since 1977

- bullpup - short overall length
- quick change of barrel - high variability
- optical sight with ring reticule - extreme high hit probability
- utmost training simplicity
- greatest operational versatility

RAYTHEON ANSCHUTZ GMBH

New Digital Gyro for Navy and Coastguard use.

PT. AVIATOR TEKNOLOGI INDONESIA

Smart Eagle II (Tuav) is an affordable, tactical and performing real time day and night intelligence surveillance, reconnaissance, target acquisition, artillery fire support and other remote sensing application at range up to 150 km from Ground Control System (GCS).

VECTRONIX AG

Vectronix G12D Digital Azimuth Director
The G12D combines the best features of a simple compass theodolite and an aiming circle: compact size, rugged design, independent orientation in dense forests as well as in deserts without any known landmarks, illuminated target cone.
It is far easier to use than former angle measuring equipment: it does not need fine levelling using spirit bubbles. Azimuth and elevation are displayed in clearly readable numbers in the telescope field of view. The operator no longer has to read scales and micrometers in various places.

FEDERAL STATE UNITARY ENTERPRISE "MMPP "SALUT"

The Federal State Unitary Enterprise "MMPP "Salut" produces and maintains the aircraft engines AL-31F (FN for Su aircraft family), of repair AL-31F (for Su-22 and Su-24) and R-15B-300 (for Mig-25), of the production units and parts for the aircraft engine D-436T (modification for Be 200, Tu-334) and D-27 (for An-70), industrial power plants and gas pump stations GTU-20S, BGTES-1S, BGTES-20S, PGU-60S.

MR MCKENIC

Be it in the Army, Air Force, Navy or Police, high combat readiness of equipments and vehicles are crucial to the state's national security.

Mr McKenic Range of Military Maintenance Chemicals has been developed to do just that: Increase combat readiness by reducing downtime and improving system reliability for vehicles, weapons and equipments. At the same time, it will reduce hefty replacement costs.

JINYANG INDUSTRIAL CO., LTD.

- Radiosonde (Upper Air Weather System)
- Portable AWS (Automatic Weather System)
- Buoy System
- WaveFinder

PT. ROBO AERO INDONESIA

- Bentang Sayap Maksimum : 3 m
- Kapasitas Angkut Payload : 6 kg
- Kecepatan Terbang Jelaiah : 100 km/jam
- Radius Terbang Maksimum : 10 km
- Lama Terbang Maksimum : 4 jam
- Ketinggian Terbang Jelaiah : 1000 -2000m di atas permukaan laut
- Daya Mesin : Motor Bensin 30-50 cc dengan Silent Exhaust
- Konstruksi : Material Komposit Plastik yang diperkuat Aramid/Carbon dan Fiber Glass.
- Komunikasi Data Kendali Terbang : Dual Band bersandi rahasia yang dapat diubah setiap operasi

DAEWOO INTERNATIONAL CORPORATION

Daewoo International Corporation is the only export organization of military commodities among the general trading firms in Korea, and armed with over 30 years of experience and accumulated sales know-how, and through the firm network, actively exporting the various military commodities such as Armored Vehicles, Naval Ships (including Submarines) and Aircrafts to the countries in Asia, Middle East, and Africa etc.

DAEWOO SHIPBUILDING AND MARINE ENGINEERING CO. LTD

- o CHANGBOGO Class Submarine
- o DSX3000 Submarine
- o DW5500D Destroyer
- o DW2000H Frigate
- o DW4000R Submarine Rescue Ship

HANKUK COMMUNICATION CO., INC.

Automatic Board Test System

Whole automatic Integrated Testing Device for fault diagnosis and preventive repair of electronic board of military electronic/communication equipments which are becoming complicated, advanced, and precised can calculate compute data, and even though finding fault information for its function and maintenance of electronic board so as to make few minute test of the board's function and condition of parts, that results in reduction of loss in time and cost compared to module repair by manual.

HANWHA CORPORATION

Commercial Explosives, Rockets, 40mm Cartridges for Grenade Launcher and Machine Gun, Hand Grenade, Fuzes, Mortar Bombs, Pyrotechnics and Signals, Propellant, Military Explosives, Multiple Launching Rockets, Aerial Bombs, Land Mines and so on.

KOREA AEROSPACE INDUSTRIES ASSOCIATION

KAIA, Korea Aerospace Industries Association, is the representative body for the Korea Aerospace Industry. The objective of KAIA is to contribute to development of national economy and prosperity by upgrading aerospace industries. Since 1996, KAIA has been organized Korea Aerospace & Defense Exhibition under the supporting Korean's Government. Korea Defense Exhibition Association (KDEA) and Korea Trade-Investment Promotion Agency (KOTRA) will be involved as the co-organizer. Korea Aerospace & Defense Exhibition is to be the best marketplace for all exhibitors wishing to widen its business. Next event will be held on October 16-21, 2007.

KIA MOTORS CORPORATION

KIA Motors Co. has specialized in the production of military vehicles and has made a major contribution to the enhancement of combat readiness of the Republic of Korea posture by supplying them as a sole maker of military vehicles designated by Korean Government since 1976. Kia Motors Co. has also supplied its military vehicles to more than 20 overseas countries such as Indonesia, Thailand, Malaysia, Morocco, Saudi Arabia, Iran, Chile, etc. Thirty years of experience in production of military vehicles has virtually turned KIA Motors Co. into a specialist in Defense-related transportation equipment. It soon established a solid reputation for reliability, high quality and technology in worldwide military vehicles needs. Kia Motors Co. is also a pioneer in design and development of military vehicles. The series of 1-ton, 1 1/2-ton, 2-ton, 5-ton & 10-ton with variants which KIA Motors products are good enough for customer's multifarious requirements and those vehicles will surely open new era in the complex battlefield.

MAZAGON DOCK LIMITED, MUMBAI

MDL is an ISO: 9001:2000 company that undertakes construction of Warships upto 6700 Tonne displacement, Merchant Ships upto 27,000 DWT and Offshore jackets and Platforms. The wide product range includes Destroyers, Frigates, Missile Boats, Corvettes, Submarines and Survey Vessels for the Navy, Offshore Patrol Vessels, and Pollution Control Vessels for the Coast Guard, Cargo Ships, Passenger Ships, Dredgers, Tugs, Fishing Trawlers and Barges for various clients and Offshore Supply Vessels, Multipurpose Support Vessels and Offshore Platforms for the Oil and Energy sector.

Three Ships of new Stealth Class Frigate and three Modern Missile Destroyers are currently under various stages of construction. MDL is also scheduled to commence the construction of the first of the six "SCORPENE" Class Submarines in mid December 2006.

The Company is the first Shipyard in the Country to have exported ships. In the recent past one High-tech Dredger was exported to French West Indies.

The Company also undertakes repairs, modernization and conversion of all types of War ships and Submarines.

LG INTERNATIONAL CORP.

KA-32 Helicopter is a multi-purpose helicopter with unique coaxial rotor system designed by Kamov Co. This Helicopter has excellent multiple application such as firefighting, SAR, EMS and Heavy lifting.

SAMSUNG TECHWIN

K9 Self-propelled Howitzer, K10 Ammunition Re-supply Vehicle, KAAV7A1 (Korean Amphibious Assault Vehicle)

POONGSAN CORPORATION

Small Arms Ammunition (5.56mm, 7.62mm, Cal.50, Pistol)
Anti-Aircraft Ammunition (20mm, 30mm, 35mm)
Naval Gun Ammunition (30mm, 40mm, 76mm)
Howitzer (155mm, 105mm, 8")
Anti-Tank Ammunition (120mm, 105mm, 90mm, 90mm R/R, 106mm R/R)
Mortar Ammunition (60mm, 81mm, 4.2")

SUKHOI AVIATION HOLDING COMPANY

Sukhoi Aviation Holding Company is the leading Russian corporation specializing in marketing, development, manufacturing, logistic support of Su military and civil aircraft.
Corporation comprises:
Sukhoi Design Bureau - develops and introduces into serial production the Su - aircraft.
KAPAO - manufactures Su-27 derivatives, Su-30MK, Su-100, Sukhoi Superjet 100.
NAPo - manufactures Su-32, An-38.
Sukhoi Civil Aircraft Company - marketing, design & development, production, logistic support of Sukhoi Superjet 100 Program.

General Director - Mikhail Pogosyan

S & T DYNAMICS CO., LTD.

- o 12.7mm Heavy Machine Gun, OCB (K6)
Caliber : 12.7mm (0.5inch)
Firing Rate : 450 - 600 rds/min
Effective Range : 1,530 m
Option : with Softmount
- o Power Train for Military Truck
Transmission
Transfer Case
Axles
- o Drive Line for Wheeled Vehicle
Independent Suspension Axles
Transfer Case
Water-Jet Propulsion Gear Box

BAE SYSTEMS PLC

BAE Systems is the premier transatlantic defence and aerospace company delivering a full range of products and services for air, land and naval forces, as well as advanced electronics, information technology solutions and customer support services. With more than 100,000 employees worldwide, BAE Systems' sales exceeded GB £15.4 billion (US\$28 billion) in 2005.

SME ORDNANCE SDN BHD

Large Calibre Ammunition

STX ENGINE CO., LTD

STX Engine is a major producer of Surveillance Radar system for Coastal, and the company provides communication system for UAV (Unmanned Aerial Vehicle)

- Main Products:
- Radar System(Coastal Surveillance System)
 - Underwater Acoustic System

HUNED TECHNOLOGIES

WCS (Weapon Control System) is for small and special naval vessels. It uses radar and EOTS for tracking multiple hostile targets automatically and is able to attack them with various naval guns.
AN/GRC-512A (V) is a UHF / VHF Multi-channel Trunk Radio providing communications networks with the features necessary to effectively operate in today's hostile environments.

YEONHAB PRECISION CO., LTD

- INTERCOM : VIC-9K (Digital), VIC-7K (Analog)
Cable Assembly & Cable Connectors
- MIL-C-5015
 - MIL-C-26482 Series I
 - MIL-C-26482 Series II
 - MIL-C-38999 Series Communication Part.

PT. PINDAD (PERSERO)

Weapons : Assault S&I, SS2, Sniper Rifle, Pistols, Revolvers, Anti Riot Gun.
Ammunitions : cal. 5.56mm, 7.62mm, 9mm, 12.7mm, 38spc, Hand Grenade, Mortar Grenades, Bombs and Anti riot ammunition.
Vehicles : Special function Vehicles Water Cannon.
Armored Personnel Carrier:
APRI-V1, APRI-2V1, APS1-V1

PT SURYA KEPANJEN

PT. Surya Kepanjen has already been established since 1979 with focus solely on military industry business sector. Well-experienced in acting as representative of many prominent military equipment manufacturers around the globe. PT. Surya Kepanjen has proved its capabilities to support Indonesian Armed Forces to achieve their main goal as defence force of Republic of Indonesia.

PT. Surya Kepanjen also involves in many local production projects with Government-owned defence manufacturers.

- Some of distinguished companies represented are :
- Airborne Systems Global (Parachutes equipment)
 - Noricum/Willing a.s (155mm howitzer)
 - Chaiseri Metal & Rubber (Track products)
 - GPS (Satellite Communication Systems)

PT. DAHANA

Dayadet (Delay Electric Detonator) are specially designed to provide the precise control necessary to produce accurate and consistent blasting result. Dayadet in cooper shell have wide range of applications, for example: Open cut production blasting, underground production blasting, quarry blasting, and general purpose applications.

Dayagel Magnum is an especially high strength and robust detonator sensitive emulsion explosive. It is a water resistant packaged explosive designed to deliver high energy in both priming applications and as a relatively high density column explosive in mining, quarrying and general blasting work.

Dayagel Seismic is the new generation of seismic explosives. Its advanced water in oil structure has been improved to deliver greater velocity of detonation (VOD), greater sensitivity and a longer shelf life.

Oilwell Shaped Charges. In the oil industry it is necessary to create penetrating holes through the well steel casing, the cement and into the formation fluids to enter the wellbore. These multiple holes, called "perforations" are created using Oilwell Shaped Charges.

ROHDE & SCHWARZ GMBH & Co KG

- Multiband, Multimode, Multirole Tactical Radio **R&S®M3TR**, multifunctional platform for tactical communications
- VHF/UHF Airborne Transceiver **R&S®M3AR**, software reprogrammable radio for cockpit and remote installation
- VHF/UHF Transceiver **R&S®M3SR**, digital reprogrammable software radio
- HF Transceiver Family **R&S®XK2000** for mobile and stationary use
- Compact tactical multipurpose interception and direction finding system **R&S®TMSR** – secure voice and data communication for organisations, border/coast guards, special task forces, etc.
- Tactical Multimode, Multirole Crypto Device **MMC3000** – secure voice and data communication for HF/VHF/UHF
- **TopSec11** – Fax and telephone encryption with 1 single unit
- **Accessnet-1** – Trunked radio solutions on TETRA standard for fixed and highly mobile use.

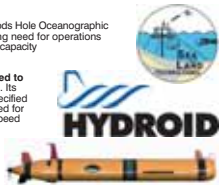

SEA AND LAND TECHNOLOGIES PTE LTD

REMUS 600
The **REMUS 600 vehicle** was designed by the Woods Hole Oceanographic Institute (WHOI) to address the U.S. Navy's growing need for operations that require extended endurance, increased payload capacity and greater operating depth.

The highly versatile **REMUS 600** can be configured to operate at depths of 600, 1,500 or 3,000 meters. Its modular design allows for an array of customer-specified configurations and payload. The vehicle is designed for up to 70 hours of continuous operation, with a top speed of five knots.

The base vehicle carries a CTD sensor, an emergency transponder, an LBL transponder, an ADCP/Doppler velocity log, a side scan sonar and pressure sensors. The vehicle can also house an array of optional sensors, including electronic still cameras, video cameras, synthetic aperture sonars and acoustic modems.
Contact Sea and Land Technologies at or call us at +65 6561 2622; www.sea-landtech.com.sg

EO SYSTEMS Co., LTD.

- NMS (Night Monocular Scope)
- DNS (Day & Night Sight)
- TWS (Thermal Weapon Sight)

KOREA AEROSPACE INDUSTRIES

- Product 1 : T-50 Advanced Jet Trainer
- Product 2 : KT-1 Basic Trainer
- Product 3 : Night Intruder 300 (UAV)

SAMSUNG THALES

Samsung Thales is a leading high-tech company, with its main operations focusing on defense. Samsung Thales is the joint venture company which Samsung Electronics of Korea and Thales International of France invest together. Initially created as a result of close cooperation between the two companies within the framework of the country's K-SAM programme (Short-Range Surface-to-Air Missile system).

- Main Business :
- Air Defense System : KSAM STS, MSAM MFR, BIHO, KGSR
 - Communication System : SPIDER, Milsatcom, HRT-21, RAU/MST
 - FSC : K1A1 (120mm MBT), FSC (KGPS, KGPS, KGCS), K9 (155mm SPH) FCS
 - Electro-optics : TAS-1, K-Lion, Laser Range Finder, Thermal Imaging System
 - Naval Combat System : KDX-I, KDX-II, KDX III
 - Avionics : FLR, EOTS, TADS, FSC radar
 - Commercial business : RFID, Homeland security, TRS

With above-mentioned business, we have made effort to preoccupy future promising projects through the indefatigable R&D. That's why we have executed the projects of Icn, Milsatcom, kmsam, ng mbt/iv excellently.

AEROMARITIME SYSTEMBAU GMBH

Advanced Platform Communications System APCOS®-4000

The new APCOS®-4000 is conceived to fully support Network Centric Communications on Naval Ships and land based assets. The system is based on a dual ATM 620 MB/s network with integrated 10 GB/s Ethernet. Universal Terminal adaptors allow the integration of all types of communications equipment, modems, data terminals, and other peripherals. System operation is made on TFT-color touch screen Voice and Control Terminals - VCT.

An outstanding operational concept provides flexible, user-friendly, and versatile operation with numerous automated functions to eliminate incorrect operations. The system provides secure end-to-end communications for voice, data, video and VoIP services.

GOA SHIPYARD LTD

The 50 metres, 35 Knots Fast Patrol Vessel is in-house designed and built by Goa Shipyard Ltd. The vessel is primarily designed for patrolling, anti-smuggling and anti-terrorist operations. It can also support the Navy during wartime as a coastal convoy escort and as a communication link.

Powered by three nos. 2720 KW diesel engines driving three independent waterjets, the vessel is capable of hot pursuit and capture operations requiring high speed manoeuvrability. The hull of the vessel is of steel and strong enough to withstand continued heavy sea conditions. Fully air conditioned accommodation is provided for 35 men on-board. This vessel is fitted with 20mm Gun at forward position, machine guns on port & starboard, and state-of-the-art Navigation and Communication equipment. Options are also available to fit Naval Stabilised Gun Systems of various makes as well as Night Vision devices. The vessel is optimised for long periods at sea and is stable in all conditions without ballasting and also has the ability to survive with two compartments damaged.

BE NERGY PRIVATE LIMITED

Our company are currently supplying the followings:

- NOMEX Flight Suits / Coveralls,
- Military Clothings/ Uniforms /Badges
- Civil Service Uniforms / Accessories
- Provides Engineering Solutions
- Aviation Spares
- Search & Rescue equipment
- Military Weapon Spares
- NBC Suits.

AMEYA TECHNOLOGIES PTE LTD

System Overview:

On-Board Processor (OBP) is Based on Intel Processor 80486BD2. The OBP is a Black Box with 32 / 12 Analog Input / Output Channels, 16 / 12 Discrete Input/ Output Channels, 2 Opto Isolated RS422 Interface Channels.

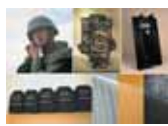

An outstanding operational concept provides flexible, user-friendly, and versatile operation with numerous automated functions to eliminate incorrect operations. The system provides secure end-to-end communications for voice, data, video and VoIP services.

HBH SINGAPORE

TENCATE ADVANCED ARMOUR

TenCate Armour Composites operates in the antiballistics market. The core activity of this group is the production of panels for bulletproof and stab-proof vests as well as for armoring vehicles used by the armed forces. In the case of personal protection, these are several layers of fabrics, such as Aramid® and Dyneema®; and in the case of vehicle protection, ceramic applications, such as TenCate Liba®.

TENCATE ADVANCED COMPOSITES

Ten Cate Advanced Composites combines fibre technology with chemical and engineering technologies. Ten Cate Advanced Composites has been aiming at establishing a position as a partner in the development of low-weight composites materials designed to meet demanding requirements.

BDL SYSTEMS LIMITED / GREYS EXPORTS LIMITED

BDL Systems Limited, incorporating Greys Exports Limited, is a world leader in EOD / IED and Security Products and whole package systems.

The picture details some of these products including the Shrike Explorer and accessories, RS68 and Mini Rabs Remote Firing Systems, Programmable Delay Fuses, Back Packs and Cable Reels wound with firing cable.

Other products not shown which will be displayed on our stand include Bomb Suits and personnel protection clothing, Disruptors and De-icers, Abrasive Cutting Equipment and the new Guardian Remote Operated Vehicle.

Security products include the full colour Under Vehicle Surveillance System, Remote Camera System (Jack in the Box) and Vapour Detection Systems.

CCO CREATIVE CONSULTING GMBH

CCO Creative Consulting GmbH has been renowned for the successful marketing of defence and security exhibitions. CCO plans, co-ordinates and implements National Pavilions of the German Defence and Security Industry all over the world. CCO operates as sales agent for various exhibitions worldwide.

CCO offers a complete range of services supporting our customers' participation in an exhibition – including co-ordination and flow control of all steps from the registration until post-exhibition follow-up.

More than 100 large and medium-sized companies of the aerospace, defence, power-producing, logistics, electronics, software-development and security industry are among our customers.

MODLEX EXPORT CENTRE

Mohajer-2

A modern surveillance UAV with the following advantages:

- Programmable by computer
- Real-time reconnaissance
- Proper-price & after-sale service
- Various application in any region
- Artillery fire support

Radius Surveillance Range: 50 km
Endurance : 90 min
Maximum Speed : 200 km
Weight (without payload) : 70 kg
Maximum Launch Weight : 85 kg
Flight Altitude : 11000 ft

THYSSENKRUPP MARINE SYSTEMS

The Class 209/1400mod submarine is the most recent version of the HDW Class 209 "family" in a line of 63 boats contracted with 14 customer navies. Thanks to the large number of orders, every contract profited from the latest results of research & development.

Improvements were tested during sea trials and then incorporated without delay into the next project. Like all her predecessors, Class 209/1400mod is a compact and reliable submarine featuring most recent technology, high combat strength, extra-ordinary battery payload and low signatures. Her comprehensive mission profiles include not only maritime defence and conflict prevention, but also surveillance and intelligence gathering tasks. She is also ideally suited for special operation missions.

In order to increase their indiscretion rate, Class 209 boats may be equipped with a Fuel Cell or Stirling plug-in section for air-independent submarine propulsion. Such integration can be done during a regular midlife modernisation and leads to a considerable increase in submerged endurance.

PT. SAS INTERNASIONAL

DURA-BASE COMPOSITE MAT SYSTEM:

To better respond to conflicts of the future, today's Military must be prepared to deal with adverse terrain conditions.

DURA-BASE Composite Mat Systems successfully address the following major Strategic Concerns:

1. Rapid Deployment
2. Platforms for landing and staging aviation assets
3. Adverse ground conditions for military ground based vehicles.

DURA-BASE provides the comprehensive solution to your military's need to Act Quickly and Decisively, anywhere & anytime.

PT. SENTRA SURYA EKAJAYA

SAAB GRINTEK COMMUNICATIONS

SAAB GRINTEK Communications, a world leader in the field of Military Tactical communication equipment, with a long and successful track record of over 40 years of experience, proudly announces the launch of its latest upgraded Phoenix HF manpack radio incorporating state of the art features such as:

- DSP technology
- ECCM/Frequency Hopping, ALE, SelCall, Secure Voice and Data , Error Free Data Link Protocol, Wireless Radio to PC/PDA Data Transfer, GPS (Positioning & Tracking), Software Based Algorithms, 6 - 32 Volt Operation, Modular, BITE, User Friendly, highly compact and lightweight as well as other unique features ideally suited for the modern soldier under hostile Electronic Warfare environment.

EADS

EADS is a global leader in aerospace, defence and related services. In 2005, EADS generated revenues of € 2.2 billion and employed a workforce of about 113,000.

The EADS Group includes the aircraft manufacturer Airbus, the world's largest helicopter supplier Eurocopter and the joint venture MBDA, the international leader in missile systems. EADS is the major partner in the Eurofighter consortium, is the prime contractor for the Ariane launcher, develops the A400M military transport aircraft and is one of the largest industrial partners for the European satellite navigation system Galileo.

SIEMENS BUILDING TECHNOLOGIES GMBH & Co. KG

Advancements in combat system and electronic warfare technology have dramatically increased the complexity and tempo of command-and-control operations and the communication burden placed upon personnel onboard Navy ships.

Increases in communication burden have also led to a proliferation of independent voice, data, and video systems that are slowing and degrading the communication process. Thus, an urgent requirement exists to integrate these independent systems through reliable, highly flexible, high performance local area networks. Siemens has met this challenge by developing a family of flexible broadband networks which transmit voice, data, and video by fiber optic cables or by conventional wiring. This family of systems is known as

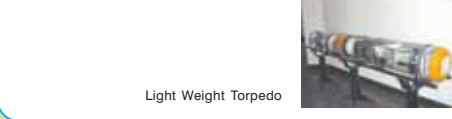

DICS
Digital Integrated Communication System

PT. MANDIRI MITRA MUHIBBAH

- Supply of Target Drone, Unmanned Aerial Vehicle (UAV) and provide Airborne Surveying Services.
- Repair & Maintenance of Military Electronic Equipments & Simulators.

PT. KING'S SAFETYWEAR

ADPR CONSULT M SDN BHD

ADPR Consult (M) Sdn. Bhd. is the publisher of **ASIAN DEFENCE & DIPLOMACY (AD&D)** and **ASIAN AIRLINES & AEROSPACE (AA&A)** magazines both of which are monthly publications and has the largest circulation in Asia for its niche.

AD&D magazine which focuses on defence, security, foreign affairs, geo strategic and technology issues provides readers with up-to-date information and in depth analysis of important issues and events in the Asia Pacific region. Since 1992, AD&D has established itself as among the world's leading defence publications.

AA&A magazine covers the civil aviation industry, on one hand AA&A focuses on developments in the aviation and aerospace sectors in the Asia Pacific. On the other, it highlights the significance to the region of happenings around the world. This makes it possible for readers to have both global and regional perspectives of the sector. Regulars include: Asia Watch, Aircraft Technology, Cargo Logistics, MRO, Engine Touring, Training Simulation, etc.

ALTRUS PTE LTD

PEROCC is a modification of a wheeled loader with blast off wheels to protect it from mines. Its role is to prove an area or route is mine free, and clear obstacles if required. The hydraulic arm can investigate and remove both obstacles and unexploded ordnance.

HONEYWELL

Honeywell International is a \$30 billion diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes and industry; automotive products; turbochargers; and specialty materials. Based in Morris Township, N.J., Honeywell's shares are traded on the New York, London, Chicago and Pacific Stock Exchanges. It is one of the 30 stocks that make up the Dow Jones Industrial Average and is also a component of the Standard & Poor's 500 Index. For additional information, please visit www.honeywell.com. Honeywell Specialty Materials, based in Morristown, N.J., is a \$4.5 billion, global leader in providing customers with high-performance specialty materials, including fluorine products; specialty films and additives; advanced fibers and composites; intermediates; specialty chemicals; electronic materials and chemicals; and technologies and materials for petroleum refining.

ASIAN MILITARY REVIEW

Asian Military Review is the largest circulated defence magazine in Asia and Pacific. Established in 1993 with the aim of delivering unbiased information to a professional audience, it was designed to provide, Asian Military and Government readership with a unique blend of articles and insight directed at meeting their defence information needs. As a purpose-designed publication for the Asian readership, AMR has become the expert voice providing authoritative information on Asia and Pacific to the defence professionals targeted at all senior serving military officers of the rank of Major (or equivalent) and above in the armed forces, senior civil servants in the related government departments/ministries, and senior executives in the defence and related industries. Asian Military Review is truly a regional defence publication with an even and balanced distribution around to all the countries in Asia and Pacific region.

ASIAN DEFENCE JOURNAL (ADJ)

ASIAN DEFENCE JOURNAL (ADJ) is among the world's leading international magazines specialising in matters concerning defence on land, at sea, and in the air. Its wide readership, comprising the top echelon of military and political decision-makers from the Asia-Pacific, has acknowledged ADJ as the most respected and successful defence periodical in the region. Founded in 1969 and published monthly since 1970, the concept of this tri-services magazine for the Asia-Pacific region, is characterised by a mix of articles on political issues, defence technology, international defence programmes, industrial and economic matters, interviews with senior executives from both the armed forces and defence industries. An important aspect that separates ADJ from any other international defence journals is that its editorial content aims at publishing fair and dedicated issues and articles, especially on security forces requirements and procurement plans, from an Asian perspective but with the international defence industry in mind.

TEMPUR

TEMPUR was conceived as a monthly bi-lingual magazine specializing on the repertoire of defence and security affairs of consequence to the Asia Pacific region, and the ASEAN nation states of Brunei Darussalam, Indonesia, Malaysia and Singapore in particular. Therefore publishing such a magazine with both Malay and English section simply translates into a wider audience, both grassroots based as well as specialized. The Editorial Team of TEMPUR comprises highly experienced and respected journalist, all with a military background, with all of them also nurturing close links with both serving as well as retired decision makers and planners civilian and military, within the national security establishments of the ASEAN nation states.

ANGKASA

Menampilkan informasi seputar dunia kedirgantaraan yang antara lain meliputi teknologi pesawat tempur dan komersial, perkembangan bisnis penerbangan/airline, olahraga dirgantara, hobi & lifestyle dan astronomi. Terbit Rabu pertama setiap bulan.

COMANDO

Menampilkan berbagai macam informasi seputar dunia kemiliteran, baik matra darat, laut dan udara ditambah dengan informasi dari dunia kepolisan. Terbit dwi-bulanan dengan 96 halaman.

KANWA INFORMATION CENTER

Monthly journal specializing in Asian Security, Arms Trades, and Developments.

TEXTRON MARINE & LAND SYSTEMS

Textron Marine & Land is a world leader in the design, production, and support of advanced marine craft, light armored combat vehicles, turrets and related subsystems. Marine products include conventional hull rescue and patrol boats, surface effect ships and air cushion vehicles. The land vehicle product line is composed of highly mobile 4 and 6-wheeled light armored vehicles, light tanks, and turrets ranging from 1 meter to 150mm. Current core products include the Landing Craft, Air Cushion (LCAC) manufactured for the U.S. Navy; the United States Coast Guard's 47' Motor Lifeboat (MLB); and the Armored Security Vehicle (ASV), manufactured for the United States Army Military Police. We serve both military and commercial interests, domestically and internationally and have products operating in over 35 countries.

SYSTEM CONSULTANCY SERVICES SDN BHD

The PX2000 system is an integrated decision-support and planning tool, designed for the armed forces. The system supports both peacetime and wartime command and control functions. The PX2000 system provides seamless and timely information flow from various levels of military echelons, enables joint planning at the highest level. The overall concept of operation of the system is based on providing awareness to appropriate levels of command within the armed forces with sufficient details to support its functions.

S.P.M. LTD LIBREC COMPANY

The S.P.M. Ltd Company is a manufacturer of high quality sewn products particularly Modular Load Carrying Systems designed for Armored Forces, Special Units, Police, Border Guards, Reconnaissance, Patrols. On the basis of end-users requirements and needs the company can also help with design, development, service and consultations to improve existing systems.

STORK SPECIAL PRODUCTS

Design, Engineering Production, Installation, and Maintenance of Ship propulsion Units, Vehicle Drives, Climate Control and Water Chilling Plants.

BHARAT EARTH MOVERS LIMITED (BEML)

In Addition to a manufacturer of construction, mining & Railway EQUIP. BEML is a Pioneer in Defence Product for Army, Navy, & Air Forces. Products like Aircraft Towing Tractor, Weapon Loading System, ARV, HRV, & Pontoon Bridges.

GARDEN REACH SHIPBUILDERS AND ENGINEERS LTD

Garden Reach Shipbuilders & Engineers Ltd. is a premier Defence Shipyard under Ministry of Defence, Dept. of Defence Production, Govt. of India. GRSE was set up as a workshop by the British India Steam Navigation Company and the River Steam Navigation Company in 1884. It was taken over by the Government of India, Ministry of Defence in 1960 and took up shipbuilding in addition to the ship repair activities. It is well equipped, multi product enterprise with a diverse product range and is the only shipyard in India with its own engine manufacturing and engineering division. GRSE builds different classes of sophisticated warships for the Indian Navy and Coast Guard viz. Frigate, ASW & Missile Corvette, Landing Ship Tank (Large), Fast Attack Craft, Fleet Replenishment Tanker, Fast Patrol Vessel, Hovercraft, etc. It has an enviable reputation in ship repairing. Its special engineering products are Electric and Electric-hydraulic Dock Machinery, Pumps, Portable Steel Bridge, Sophisticated Diesel and Gas Engine. It has acquired ISO certification for its various divisions and has embarked on an ambitious modernization plan.

ATLAS ELEKTRONIK GMBH

The command and fire control system COSYS from ATLAS ELEKTRONIK is designed to provide the required functionality in all warfare environments simultaneously. COSYS consists of the ARGOS (Architecture for Generic Open Systems) Combat Management System, the Sensor Suite and the Weapon Suite. ARGOS integrates the associated sensors and weapons. Installed onboard surface vessels, it provides the combatant with highly automated evaluation, planning, decision, resource management and weapon control functions, ensuring the performance of simultaneous engagements and tactical reactions at a high degree of flexibility and reliability to perform the missions and carry out operations in all warfare areas. This Integrated Weapon System also supports operations in non-warfare missions and all operations designed to preserve national sovereignty. Parts of the IWS can also be used for search and rescue operations, fishery protection and supervision and for civilian disaster relief operation.

BUMAR SP. Z. O. O.

Bumar Sp. z o.o. is the leading company and sole exporter of BUMAR GROUP products and services :
Armaments and
armor and
motor equipment,
Air Defence Systems, Optoelectronic equipment, On-board armaments and personal equipment for soldiers, including NBC protection systems, Armament, Ammunition, Missile Systems, Combat means and materials for their production, Overhaul and modernization services for armament and military equipment.
